Dear Professor Lederberg:

Sorry to be slow in sending along the enclosed materials--but my office was moved while I was away and a jurisdictional strike by the buildings and grounds people resulted in the move taking an interrupted month. I am finally getting unpacked.

The enclosed provides a sample of some of my recent things--several of which as you can see, relate to matters proto-genetical.

Sincerely,

A handwritten signature in dark ink, appearing to read 'CR' followed by a horizontal line.
